CLAWNAGERS

Implementation Timeline

Your 30/60/90-Day Roadmap to Successful AI Agent Curriculum Rollout

🎯 Implementation Overview

First 30 Days

Setup & Preparation

Foundation building, teacher training, technology setup

Days 30-60

Pilot Program

First cohort launch, feedback collection, refinement

Days 60-90

Scale & Optimize

Multiple classes, process improvement, success measurement

💡 Success Principle

Start small, iterate quickly, scale deliberately. Your first cohort teaches you what works. Your second cohort proves you can repeat it. Your third cohort shows you're ready to scale district-wide.

📋 Pre-Implementation Checklist

Before Day 1 - Complete These Prerequisites

- ☐ Purchase Clawnagers license (School or District)
- ☐ Identify pilot teacher(s) - 1-2 teachers maximum for first cohort
- ☐ Reserve computer lab or ensure 1:1 device access for students
- ☐ Coordinate with IT department for Node.js installation and network access
- ☐ Set up AI platform access (OpenAI, Anthropic, Google, or local Ollama)
- ☐ Schedule pilot class(es) - recommend 8-week block in quarters 2-4
- ☐ Communicate with parents about innovative AI curriculum

📅 Detailed Implementation Timeline

DAYS

1-30

Setup Phase

🚀 Foundation & Teacher Preparation

Goal: Get teachers trained, technology configured, and first pilot class scheduled.

- ▶ **Week 1:** License activation, curriculum access, initial teacher review
- ▶ **Week 2:** IT coordination, Node.js/OpenClaw installation testing
- ▶ **Week 3:** Teacher training workshop (4-6 hours), build first agent together
- ▶ **Week 4:** Pilot class preparation, student recruitment, parent communication

⚠️ Common Week 1-4 Pitfalls

- Underestimating IT setup time - start early!
- Teacher overwhelm - focus on Week 1 content only initially
- Overambitious pilot size - 15-25 students maximum for first run

DAYS

31-60

Pilot Phase

🧪 First Cohort Implementation

Goal: Successfully run complete 8-week Clawnagers program with first student cohort.

- **Week 5-6:** Clawnagers Week 1-2 (Meet Your Agent, Guardrails)
- **Week 7-8:** Clawnagers Week 3-4 (Skills & Superpowers, Memory & Identity)
- **Week 9-10:** Clawnagers Week 5-6 (Channels, Design Your Agent)
- **Week 11-12:** Clawnagers Week 7-8 (Build Sprint, Demo Day)

💡 Pilot Success Metrics

- 85%+ student completion rate (finished all 8 weeks)
- Student satisfaction score above 4.0/5.0
- Teacher confidence level above 3.5/5.0
- At least 5 functional AI agents created by Demo Day

DAYS

📈 Expansion & Optimization

61-90

Scale Phase

Goal: Launch second cohort, refine processes, prepare for broader rollout.

- **Week 13:** Pilot debrief, lessons learned documentation
- **Week 14:** Curriculum adjustments, teacher feedback integration
- **Week 15-16:** Second cohort launch OR additional teacher training
- **Week 17-18:** Process documentation, scale-up planning

✅ Scale Readiness Indicators

- Pilot teacher can mentor new teachers
- Technology setup is streamlined and documented
- Student demand exceeds available spots
- Administrator support for expansion

👥 Team Roles & Responsibilities

Role	Responsibilities	Time Commitment	Key Success Factors
Pilot Teacher	Deliver curriculum, provide student support, collect feedback	50 minutes/day + 2 hrs prep/week	Growth mindset, comfort with ambiguity
IT Coordinator	Install software, configure network, troubleshoot tech issues	8 hours setup + ongoing support	Proactive problem solving

Administrator	Resource allocation, teacher support, community communication	2-3 hours/week oversight	Clear vision communication
Clawnagers Support	Curriculum questions, technical support, best practices	Responsive email/Discord support	Proactive outreach during pilot

📊 Weekly Check-in Framework

Use This Weekly Review Template During Implementation:

- ☐ **Student Engagement:** Are students excited? Confused? Dropping out?
- ☐ **Technical Issues:** What broke this week? How quickly was it resolved?
- ☐ **Teacher Confidence:** Does the teacher feel prepared for next week's content?
- ☐ **Curriculum Pacing:** Are we on track or falling behind schedule?
- ☐ **Resource Needs:** What additional support does the team need?

🎯 Milestone Celebrations

Milestone	When	Celebration Ideas	Communication
First Agent Created	Week 1-2	Social media post, principal visit	Share screenshots with parents
Mid-Program Check	Week 4	Student showcase for other classes	Local media story opportunity

Demo Day	Week 8	Community event, judge panel, awards	School board presentation
Scale Decision	Day 90	Teacher recognition, program expansion announcement	District-wide communication

⚠️ Risk Management

Top 5 Implementation Risks & Mitigation Strategies

1. **Technology failures:** Have backup API keys, test all connections before class
2. **Teacher overwhelm:** Start with basic features, add complexity gradually
3. **Student disengagement:** Emphasize creativity and personal expression in agents
4. **Administrative skepticism:** Document early wins, share student excitement
5. **Scaling too quickly:** Perfect one classroom before expanding to multiple teachers

📈 Success Measurement Framework

Metric Category	30-Day Target	60-Day Target	90-Day Target
Teacher Readiness	1 trained teacher	Confident delivery of full curriculum	Ability to mentor new teachers
Student Outcomes	N/A (setup phase)	85%+ completion, 4.0+ satisfaction	Repeat success with second cohort
Technical Infrastructure	All systems tested and working	Smooth operation, minimal downtime	Documented, repeatable processes

Community Buy-in	Administrator and parent support	Positive student/teacher feedback	Demand for program expansion

🚀 Beyond 90 Days: Year 1 Vision

- **Semester 2:** Multiple teachers delivering Clawnagers simultaneously
- **Summer:** Advanced teacher training, curriculum customization
- **Year 2:** District-wide rollout, inter-school competition
- **Year 3:** Regional Demo Day participation, student mentoring programs

🎯 The Ultimate Success Indicator

You'll know Clawnagers has succeeded when students ask: "When can I take this class again?" and teachers say: "This is the most engaging curriculum I've ever taught."
