ROI Breakdown

Benefit Category	Annual Value	3-Year Total
Teacher Time Savings	$2,800	$8,400
Student Future Earnings	$75,000	$225,000
Program Cost	-$899	-$2,697
Net ROI	**$76,901**	**$230,703**

📊 Why AI Curriculum Pays Off

🚀 Career Preparation

Students entering AI-first job market earn 25-40% more than peers without AI skills. Bureau of Labor Statistics projects 75% growth in AI-related jobs by 2030.

⏱️ Teacher Efficiency

Ready-to-use curriculum saves 80+ hours of lesson planning. Teachers focus on instruction, not content creation.

🏆 Student Engagement

Hands-on AI building increases STEM interest by 300%. Students see

📈 School Recognition

First-mover advantage in AI education. Demo Day creates positive

immediate real-world applications.

PR, attracts families, boosts enrollment.

💰 Funding Options

Funding Source	Typical Amount	Clawnagers Fit	Application Timeline
Title IV-A (Student Support)	$10,000-50,000	Perfect - STEM enrichment	Annual (Fall)
Perkins Career & Technical Education	$15,000-100,000	Excellent - career preparation	Annual (Spring)
Local Education Foundation	$1,000-25,000	Good - innovative programs	Ongoing
Technology Company Grants	$5,000-50,000	Excellent - AI alignment	Quarterly

✅ Implementation Timeline

Phase	Timeline	Activities	Deliverables
Setup (Week 1-2)	2 weeks	License purchase, teacher training, tech setup	Working lab, trained teachers
Pilot (Week 3-10)	8 weeks	Run first cohort, gather feedback	Pilot class completion, lessons learned
Scale (Semester 2)	18 weeks	Multiple classes, teacher mentoring	Full program rollout

Optimize (Year 2)	Ongoing	Refinement, advanced modules	Mature program, measurable outcomes

🎓 Student Outcomes

Schools using Clawnagers report:

- **95% completion rate** - Students finish all 8 weeks
- **87% pursue advanced CS** - Continue with programming/AI courses
- **73% career interest shift** - Now considering AI/tech careers
- **4.8/5 student satisfaction** - "Most engaging class ever"
