CLAWNAGERS

Title IV-A Funding Guide

How to Fund Clawnagers with Federal Student Support & Academic Enrichment Grants

📋 What is Title IV-A?

Title IV-A, Part A (Student Support and Academic Enrichment Program) is a federal grant program that provides funding to improve students' academic achievement by increasing the capacity of schools to:

- Provide all students with access to a well-rounded education
- Improve school conditions for student learning
- Improve the use of technology to enhance academic achievement

💡 Perfect Fit for Clawnagers

Clawnagers directly addresses all three Title IV-A priorities: it's a technology-enhanced, well-rounded education program that creates positive learning conditions through hands-on AI agent development.

✅ Clawnagers Eligibility Checklist

Your Clawnagers program qualifies for Title IV-A funding if it meets these criteria:

✓ **Well-Rounded Education:** STEM curriculum that integrates computer science, critical thinking, and career preparation

- ✓ **Technology Integration:** Students use AI tools and platforms to build real-world applications
- ✓ **Student Engagement:** Project-based learning with measurable student outcomes
- ✓ **Academic Achievement:** Supports STEM learning standards and college/career readiness
- ✓ **Safe & Healthy Schools:** Includes digital citizenship and responsible AI use components

💰 Funding Amounts by School Size

Small District (<1,000 students)

$10,000

Covers 11+ School Licenses

Medium District (1,000-10,000 students)

$25,000

Multiple District Licenses

Large District (10,000+ students)

$50,000+

District-wide implementation

📝 How to Write a Winning Title IV-A Proposal

Section	Key Points for Clawnagers	Supporting Evidence
Needs Assessment	Students lack AI/computer science exposure; STEM career preparation gaps	Local employment data, student interest surveys
Program Description	8-week hands-on AI agent curriculum; real-world project outcomes	Curriculum overview, sample lesson plans, student examples

Goals & Objectives	Increase STEM interest by 40%; 90% program completion; measurable skills gains	Pre/post assessments, portfolio reviews, demo day presentations
Evaluation Plan	Student engagement surveys, project quality rubrics, career interest tracking	Assessment tools included with Clawnagers curriculum
Sustainability	Teacher training ensures multi-year implementation; low ongoing costs	Professional development plan, renewal cost projections

🎯 Alignment with Title IV-A Priorities

Priority 1: Well-Rounded Education (40% of funds)

How Clawnagers fits: Integrates STEM, computer science, critical thinking, and career preparation. Students learn programming concepts through AI agent development while building 21st-century skills.

- Cross-curricular connections (math, science, communication)
- Project-based learning with authentic assessments
- Career exploration in high-growth AI/tech fields

Priority 2: Safe & Healthy Schools (20% of funds)

How Clawnagers fits: Emphasizes responsible AI use, digital citizenship, and ethical considerations in technology development.

- AI ethics and bias awareness curriculum
- Safe coding practices and digital security
- Collaborative learning environment

Priority 3: Effective Use of Technology (40% of funds)

How Clawnagers fits: Students use cutting-edge AI platforms and tools to create functional applications that solve real problems.

- Hands-on experience with AI development tools
- Integration of multiple technology platforms
- Measurable technology skills acquisition

📅 Application Timeline

Typical Title IV-A Application Cycle

- **January-March:** State announces funding availability, publishes application guidelines
- **April-May:** Districts prepare and submit applications
- **June-July:** State reviews applications, awards announced
- **August-September:** Funding distributed, programs can begin
- **October:** Implementation starts (perfect timing for Clawnagers rollout)

💡 Sample Budget Breakdown

Budget Category	Amount	Justification
Clawnagers District License	$3,999	Curriculum license for unlimited students
Teacher Professional Development	$2,000	Training for 3-4 teachers (8 hours @ $25/hour each)
Technology Hardware	$8,000	Laptop upgrades/additional devices if needed

AI Platform Access (OpenAI/Anthropic)	$1,200	API access for student agent development
Demo Day & Community Showcase	$800	Venue, materials, awards for student presentations
Total Request	**$15,999**	Complete program implementation

📊 Measurable Outcomes

⚠️ Critical Success Factors

Title IV-A requires measurable outcomes. Clawnagers provides built-in assessment tools and metrics:

- **Student Engagement:** Pre/post surveys showing increased STEM interest
- **Skill Acquisition:** Portfolio-based assessment of AI agent projects
- **Completion Rates:** % of students completing all 8 weeks
- **Career Interest:** Tracking students who pursue advanced CS/AI courses
- **Community Impact:** Demo Day attendance, media coverage, parent feedback

✍️ Sample Grant Language

Use This Language in Your Application:

> *"The Clawnagers AI Agent Development Program directly addresses Title IV-A priorities by providing students with hands-on experience in artificial intelligence and computer science through project-based learning. Students will develop real AI agents that solve authentic problems, integrating STEM learning with critical thinking, ethical reasoning, and career preparation. This well-rounded educational experience uses cutting-edge technology to engage students while building 21st-century skills essential for college and career success."*

🔗 Additional Federal Funding Sources

Program	Typical Amount	Focus Area	Clawnagers Alignment
Perkins V (Career & Technical Education)	$15,000-$100,000	Career preparation	AI/computer science career pathways
Title I (School Improvement)	$5,000-$50,000	Academic achievement	STEM enrichment for low-income students
IDEA Enhancement	$10,000-$25,000	Special education support	Adaptive learning through AI tools

🚀 Next Steps

1. **Contact your state education department** to confirm Title IV-A application deadlines
2. **Schedule a Clawnagers demo** to see the curriculum in action
3. **Gather baseline data** on current STEM interest and computer science enrollment
4. **Build district support** by presenting ROI calculations to administrators
5. **Partner with local businesses** for Demo Day judging and career connections
